

## VALUES AT OUR CORE

### People

#### PEOPLE BEFORE PROFITS

We're here to serve - not our wallets, not our stakeholders, not our ego - but *you*. With ComfortPro you will always be treated with the highest level of service possible.

### Quality

#### QUALITY BEFORE QUANTITY

At ComfortPro, we don't pander for your business - we know that you hire us to find and solve problems. We will only recommend work that we believe you want/need, and respect the decisions you make for *your* family or business.

### Integrity

#### INTEGRITY BEFORE INCOME

Our mission is to provide the best value service with peace of mind. We know that equipment fails and problems arise - what's important is being able to trust the person that comes to *your* home to do what is right, no matter what.

# Additional Services

Why call someone else when you already have a Pro?

## Electrical Services

### UPGRADES & NEW INSTALL

Dimming lights in dining room? Outlet in hallway that only works sometimes or won't hold a cord when plugged in?

Not only do we provide electrical service work but upgrades as well - such as *updating* electrical fixtures, lighting or appliances. We'll even replace your older, dangerous breaker panels, and add circuits for your outdoor kitchen or perimeter lights.

## Standby Generators

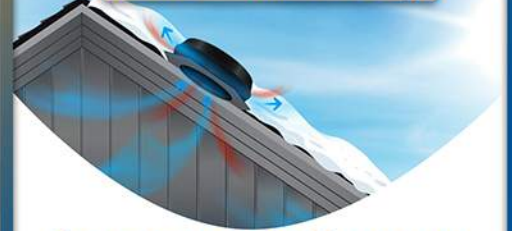

### EMERGENCY POWER

There are few things as irritating as losing power when you need it most. You can have an emergency standby generator for your house as low as \$91 per month. You can give your family *peace of mind* that they are covered in any situation. We also have yearly maintenance programs to keep your system running for many years to come.

Inquire today!

## Attic Efficiency

### TEMPERATURE CONTROL

High Utility Bills? Uncomfortable rooms? The problem may not be your A/C system but your attic. We offer Full service Attic Efficiency packages to keep the heat down both in your attic and home. Make it *comfortable* where you live by adding ventilation, radiant protection or additional insulation to ensure that your hot, dirty attic air is not leaking into your home.

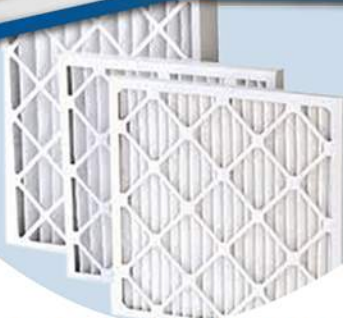

### BREATHABLE AIR

Is your home dusty? Do you have seasonal allergies or notice funny smells?

The air we breathe is very important - both for you and your loved ones. Don't risk potential health issues by not knowing what you are breathing! We offer Indoor Air Quality Monitoring, as well as advanced air filtration and purification, which includes *virus* and *bacteria* removal.

## Air Quality

### AUTOMATIC ORDERING

You'll never have to make a late night run to the store for air filters again, or go months without changing just because you have forgotten to buy one! We'll set you up with an *automated* shipping and delivery service - with built in reminders - to help you stay on top of your air filter usage. What a great, affordable option!

## Filter Fetch

# 5-Star Service

Don't just take our word for it, see what others are saying!

I know summer time keeps ac guys very busy. We called him first thing in the morning after our ac went out and he worked us in the same day. Great service, friendly and honest. Good price too! I have already recommended him to a couple of people who have asked if I knew an ac guy. Thanks to my friend Billy for recommending JR to us!

**Adrianna Simkins** reviewed ComfortPro Solutions — 5★

Amazing service! He squeezed us in last minute, showed up on time, was super friendly, kind, and didn't push to replace things that didn't need to be replaced. The price was fair, and I didn't feel like I was being swindled. 10/10 I recommend!

JR came out on short notice, between family events, to diagnose and fix our A/C system. He was professional, quick, did excellent work, and I really appreciate him taking the time.

★★★★★

We started renovating an older home a couple of years ago, and soon realized the A/C and heater wasn't installed in an optimal way and had many issues. J.R. is fantastic at troubleshooting the problem and finding a solution. He works efficiently, with integrity and has consideration for the homeowner. We have had Comfort Pro do all our repairs and maintenance for the past two years and have been completely, 100% satisfied. We won't hire anyone else for the job. We HIGHLY recommend.

We called him at night & he was there the next morning. He was awesome at communicating when he was on his way to my house. He had to replace our motor and he was very reasonable on the cost. His customer service is top notch and I would recommend him to anyone, any time. Thanks again!

JR and his crew successfully installed HVAC in a 32 year old house which previously had only room air conditioners. We are so much more comfortable this winter than last and are very pleased with the professionalism and quality of the work performed. I would not hesitate to recommend JR and Comfort Pro.

Received a fast installation of a new AC unit by a knowledgeable service professional. Old unit out, new one in - no fuss, no muss - with no disruption to the household. I couldn't be more thrilled with the entire experience. I never would have thought getting a new AC unit could feel so good!

Project: Repair or Service a Central Air Conditioning System

I had several people look at my AC unit and no one could solve the problem. JR showed up and had it working again within 15 minutes. I highly recommend him and his business. He's beyond professional, easy to talk to, fast and great at what he does. I could not have asked for a better experience.

I had several people look at my AC unit and no one could solve the problem. JR showed up and had it working again within 15 minutes. I highly recommend him and his business. He's beyond professional, easy to talk to, fast and great at what he does. I was expecting to pay several thousand dollars for a new unit, but JR repaired it for less than 10% of what I thought I was going to spend. I could not have asked for a better experience and could not be more satisfied.

★★★★★

These guys are the best. We have an older home and A/C system that required special care. JR has a vast knowledge of air conditioning systems and designs. He provided options and explained issues we didn't understand in a way that made perfect sense. ComfortPro handled our needs with finesse and efficiency.
